Journal of Forecasting, Vol. 5, v–vii (1986)

Contents

Volume 5, Issues Nos 1–4
JOURNAL OF FORECASTING

Issue No. 1, January–March

Forecasting with an Econometric Model: The 'Ragged Edge' Problem: *K. F. Wallis* 1

Integrating Time-series and End-use Methods to Forecast Electricity Sales: *E. B. Fischler and R. F. Nelson* 15

Linear Constraints and the Efficiency of Combined Forecasts: *R. T. Clemen* 31

Forecasting Donors and Donations: *M. Britto and R. M. Oliver* 39

Forecasting Capacity and Capacity Utilization in the U.S. Aerospace Industry: *W. R. Greer, Jr. and S. S. Liao* 57

Note

The Use of Growth Curves in Forecasting Market Development: *I. McGowan* 69

Software Reviews 73

Mainframe Specific Purpose Forecasting Software: A Survey: *E. Mahmoud, G. Rice, V.E. McGee and C. Beaumont* 75

Issue No. 2, April–June

Forecasting Temporally Aggregated Vector ARMA Processes: *H. Lütkepohl* . 85

Prediction in a Duration Model: *K. Brännäs* 97

Forecasting Relative Quality: *N. D. Uri* 105

Indexed or abstracted by 'Current Contents', 'Science Citation Index', 'SCIMP' and other leading Indexing/Abstracting Services.

Subjective Confidence in Forecasts: A Reponse to Fischhoff and MacGregor: *G. Wright and P. Ayton* 117

Software Reviews 125

Mainframe Multipurpose Forecasting Software: A Survey: *E. Mahmoud, G. Rice, V. E. McGee and C. Beaumont* 127

Book Review 139

Addendum 141

Call for Papers 142

Issue No. 3, July–September

Beyond Heuristics and Biases: A Contingency Model of Judgemental Forecasting: *L. R. Beach, V. E. Barnes and J. J. J. Christensen-Szalanski* 143

The Flat Maximum Effect and Linear Scoring Models for Prediction: *A. D. Lovie and P. Lovie* 159

A Super-resolution Algorithm for Spectral Estimation and Time Series Extrapolation: *S. P. Moutter, P. S. Bodger and P. T. Gough* 169

A Comparison of Forecasts from Least Absolute Value and Least Squares Regression: *T. E. Dielman* 189

Linear Constraints and the Efficiency of Combined Forecasts: *G. Trenkler and E. P. Liski* 197

Call for Papers 203

Issue No. 4, October–December

The Importance of Non-linearities in Large Forecasting Models with Stochastic Error Processes: *S. G. Hall* 205

On Tests for Non-linearity in Time Series Analysis: *W. S. Chan and H. Tong* . 217

An Empirical Investigation of Combinations of Economic Forecasts: *K. Holden and D. A. Peel* 229

Linear Combination of Forecasts with an Intercept: A Bayesian Approach: *R. F. Bordley* 243

Call for papers 250
